

THE PRODUCT BACKLOG

The product backlog of the project consists of 16 user stories with two different users; the customer and the seller. As we present next:

1. Buy a product.

As	customer	I want to	buy products online	So that	It won't be necessary to go out of my house
----	----------	-----------	---------------------	---------	---

2. Create a wish list.

As	customer	I want to	Save my desired products	So that	I can buy it later
----	----------	-----------	--------------------------	---------	--------------------

3. Search a product.

As	customer	I want to	Find an specific product without	So that	I can quickly find the item I am looking for
----	----------	-----------	----------------------------------	---------	--

4. Add product to the cart.

As	customer	I want to	Be able to add all products I want	So that	I can make a list of product I intended to buy
----	----------	-----------	------------------------------------	---------	--

5. Remove product from the cart.

As	customer	I want to	Be able to delete products of my shopping list	So that	I can regret if I decide to not buy something
----	----------	-----------	--	---------	---

6. Apply a discount.

As	customer	I want to	Apply a discount code to my total to pay	So that	I can save some money
----	----------	-----------	--	---------	-----------------------

7. Sign in to the web page.

As	customer	I want to	Be able to sign in into account	So that	I can access to my personal information
----	----------	-----------	---------------------------------	---------	---

8. Sign Up to the web page.

As	<i>customer</i>	I want to	<i>Be able to create an account</i>	So that	<i>I can save my personal information and keep track of my purchases</i>
----	-----------------	-----------	-------------------------------------	---------	--

As	<i>seller</i>	I want to	<i>Publish my products</i>	So that	<i>A costumer will find it and buy it</i>
----	---------------	-----------	----------------------------	---------	---

10. Edit a product.

As	<i>seller</i>	I want to	<i>Be able to change the information of a published product</i>	So that	<i>I can update the product every time I need</i>
----	---------------	-----------	---	---------	---

11. Delete a product.

As	<i>seller</i>	I want to	<i>Be able to remove a product</i>	So that	<i>I can manage my catalog</i>
----	---------------	-----------	------------------------------------	---------	--------------------------------

12. Log in as a seller.

As	<i>seller</i>	I want to	<i>Sign in in the store page</i>	So that	<i>I can manage my private information an catalog</i>
----	---------------	-----------	----------------------------------	---------	---

13. Sign Up as a seller.

As	<i>seller</i>	I want to	<i>Sign up in the store page</i>	So that	<i>I can become a seller an earn money</i>
----	---------------	-----------	----------------------------------	---------	--

14. Create discount coupons.

As	<i>seller</i>	I want to	<i>Register discount codes</i>	So that	<i>I can offer some advantages over my competitors</i>
----	---------------	-----------	--------------------------------	---------	--

15. Edit discount coupons.

As	<i>customer</i>	I want to	<i>Edit the information of a discount code</i>	So that	<i>I can update their details</i>
----	-----------------	-----------	--	---------	-----------------------------------

16. Delete discount coupons.

As	<i>seller</i>	I want to	<i>Remove a discount code of my list of promotions</i>	So that	<i>I can avoid confusions by removing expired promotions</i>
----	---------------	-----------	--	---------	--

THE SPRINT ARTIFACTS

We will work with the following sprint artifacts:

1. The sprint backlog.
2. A Trello board.

THE SPRINT BACKLOGS AND DURATION

Sprint	User Stories	Duration
1	9, 10, 11.	8 days
2	3, 4, 5, 2.	8 days
3	6, 14, 15, 16.	7 days
4	1, 7, 8, 12, 13.	7 days
